

characters, and words "/s/ Robert L. Springfield" typewritten above the signature line, and the letters, characters, and words "Dated: September 20, 1995" typewritten to the right of the signature line.

17. Springfield did not sign the Certificate of Construction or any document resembling it on September 20, 1995, or at any other time. Springfield has never authorized anyone to represent or indicate that he had signed or would sign any such document.

18. The Certificate of Construction includes the statement, among others, that Station WNMT733 was fully constructed on November 18, 1988. The Springfield Certificate also includes the statement, among others, that the proposed assignor does not anticipate that the proposed assignee will make any substantial changes to the station except as set forth in the Assignment Application.

19. Springfield has never advised Doering or any other person of the construction completion date for Station WNMT733. Springfield has never made any statement to any person regarding his expectations about changes of station operations after assignment of the authorization to Doering. Springfield was never advised that Doering was seeking to take assignment of the authorization.

20. On or about September 20, 1995, Defendant Doering signed the Assignment Application at Item 42 of FCC Form 600 therein, thereby certifying that the information contained therein was true and accurate.

21. As of September 20, 1995, the date on or about which the Assignment Application was signed, Defendant Doering had never met Springfield and had no agreement or understanding with Springfield or United regarding assignment of the license for Station WNMT733.

22. As of December 15, 1995, the date on or about which the Assignment Application was submitted to the FCC, Defendant Doering had never met Springfield and had no agreement or understanding with Springfield or United regarding assignment of the license for Station WNMT733.

23. Defendant Doering has never had an agreement or understanding with Springfield or United regarding assignment of the license for Station WNMT733.

24. Defendant Doering caused the Assignment Application to be prepared, filed with the FCC, and prosecuted without the knowledge or consent of Springfield or United.

25. Defendant Doering knew or should have known that the Assignment Application contained false and misleading statements and included forged or altered documents.

34. During the period including September 1995 through December 1995, Defendant Pick was in Chapter 7 bankruptcy. On May 12, 1995, the United States Bankruptcy Court for the Central District of California, in Case No. LA93-38738LF, issued an order authorizing the Chapter 7 bankruptcy trustee to sell Pick's assets, including FCC radio authorizations. Exhibit No. 4 appended hereto is a true and accurate copy of that order.

35. Defendant Pick arranged for the license for Station WNMT733 to be assigned to Defendant Doering in order to avoid possible seizure and sale of the authorization by the bankruptcy trustee.

36. Defendant Doering knew or should have known that the arrangement to assign the authorization from United to Doering rather than to Pick was part of a scheme to shield assets from possible seizure and sale by the bankruptcy trustee.

37. Exhibit No. 5 appended hereto is a copy of the Declaration of Robert L. Springfield, the original of which was previously filed with the Wireless Telecommunications Bureau staff in Gettysburg, Pennsylvania. Springfield's declaration provides a sworn statement avering to most of the above factual allegations. As to any factual allegations above not addressed in Springfield's declaration and not subject to official notice, they are based on information and belief and are believed in good faith by Complainants to be true.

38. Suit has not been filed in any court or other government agency on the basis of the same cause of action. This matter has been addressed to the staff of the Wireless Telecommunications Bureau in Gettysburg, PA, who have thus far refused to take any action on it.

#### **B. Legal Conclusions**

1. Part of the relief sought herein is the reinstatement to United of the license that was fraudulently assigned to Doering without United's knowledge or consent. As the rightful licensee of Station WNMT733 and the victim of a scheme to fraudulently assign the license, Complainant United clearly has standing as a party-in-interest in this matter.

2. Part of the relief sought herein is the imposition of regulatory sanctions against Defendants Doering and Pick, including the institution of license revocation proceedings and the denial of Defendants' pending applications. As a commercial competitor of both Doering and Pick in the Los Angeles mobile radio business, Kay has standing as a party-in-interest in this matter.<sup>2</sup>

---

<sup>2</sup> *FCC v. Sanders Brothers*, 309 U.S. 470 (1940).

3. The facts clearly demonstrate that the assignment of the authorization to Doering was accomplished by means of fraud on both United and the Commission. In similar circumstances, and on the basis of mere unsworn allegations and far less proof than shown here, the Commission has summarily reinstated an authorization to the previous holder.<sup>3</sup> No less is required in this instance.<sup>4</sup>

4. The facts alleged above present a *prima facie* case that Defendants Doering and Pick have caused to be filed with the Commission a fraudulent assignment application containing false statement and forged documents. FCC applicants and licensees have a duty of candor which requires them to be "fully forthcoming as to all facts and information relevant" to such applications. *Swan Creek Communications v. FCC*, 39 F.3d 1217, 1222 (D.C. Cir. 1994). Relevant information is defined as "information that may be of decisional significance." *RKO General, Inc. v. FCC*, 670 F.2d 215, 229 (D.C. Cir. 1981), *cert. denied*, 456 U.S. 927 and 457 U.S. 1119 (1982). It is difficult to imagine a more decisionally significant piece of information than the fact that the proposed assignor has no knowledge of and did not consent to the assignment application before the Commission. Yet, Doering not only withheld this information from the Commission, he took affirmative steps to represent contrary information. There is also sufficient reason to believe that Pick had a motive for, was aware of, and may even have participated in this misrepresentation.

5. This case involves false statements of fact made with an intent to deceive. *Fox River Broadcasting, Inc.*, 93 FCC 2d 127, 129 (1983). The Commission "must demand candor from those who come before it and must refuse to tolerate deliberate misrepresentations." *Nick J. Chaconas*, 28 FCC 2d 231, 233 (1971), *citing FCC v. WOKO, Inc.*, 329 U.S. 223 (1946) and *WMOZ, Inc.*, 36 FCC 202 (1964), *aff'd* 3 FCC 2d 637 (1966). The Commission therefore can not and does not tolerate intentional misrepresentation, even of otherwise insignificant information. "The fact of concealment may be more significant than the facts concealed." *Id.*, 329 U.S.

<sup>3</sup> See 12 October 1995 letter from William H. Kellett, Esq. to Shirely S. Fujimoto, Esq. in the Matter of AVCOM Co. (Station WNPA325), *citing Vidcom Marketing, Inc.*, 6 FCC Rcd 1945 (1991). A copy of Mr. Kellett's letter is appended hereto as Exhibit No. 6. In that case, on the basis of an unsworn and uncorroborated allegation that an authorization had been fraudulently assigned, and even though the allegation was contradicted by two separate sworn affidavits of persons directly involved in and with personal knowledge of the matter, the Commission nonetheless summarily, without hearing, and without even acknowledging, much less resolving, the disputed facts, reinstated the authorization to the previous holder. Certainly no less can be required in this case.

<sup>4</sup> After consenting to the assignment of license to Doering, the Commission, on December 27, 1996, awarded a finder's preference to Mobile Relay Associates, Inc. ("MRA"). See *Compliance File No. 96F160*. Doering has sought reconsideration of that action and it remains pending before the Commission. Neither MRA nor the Commission served the finder's preference request on United, and United was therefore entirely unaware that it had been filed. In these circumstances, the finder's preference award should not prevent United from reclaiming its license.

at 237. More than any other type of violation, acts of intentional misrepresentation go to the core of the Commission's concerns about basic character qualifications. *See Policy Regarding Character Qualifications in Broadcast Licensing*, 102 FCC2d 1179, 1204-1205 & 1210-11 (1985), *recon. denied*, 1 FCC Rcd 421 (1986), *modified*, 5 FCC Rcd 3252 (1990), *recon. granted in part*, 6 FCC Rcd 3448 (1991); *see also WPOM Radio Partners, Ltd.*, 6 FCC Rcd 1413 (1991).

6. A prima facie showing has been made raising substantial and serious question as to the qualifications of Defendants Doering and Pick to continue to be Commission licensees.

**C. Requested Relief**

1. In view of the foregoing, Complainant United respectfully requests the reinstatement to it of the authorization for Business Radio Service Station WNMT733.

2. In view of the foregoing, Complainant Kay respectfully requests:

- (a) that any pending applications filed by Defendants Doering or Pick be set for hearing, pursuant to Section 309(e) of the Communications Act of 1934, as amended, 47 U.S.C. § 309(e), on the issue of whether the applications should be denied on the grounds that the applicants lack basic character qualifications;
- (b) that any authorizations granted to Defendants Doering or Pick within the past 30 days be set aside, pursuant to Section 405 of the Communications Act of 1934, 47 U.S.C. § 405(a), and included in the hearing requested in item C.2(a), above;
- (c) the issuance and due service of an order to show cause, pursuant to Section 312(c) of the Communications Act of 1934, as amended, 47 U.S.C. § 312(c), why all FCC licenses held by Defendants Doering or Pick should not be revoked pursuant to Section 309(a) of the Communications Act of 1934, as amended, 47 U.S.C. § 312(a); and
- (d) the issuance and due service of a notice of apparent liability, pursuant to Section 503(b) of the Communications Act of 1934, as amended, for forfeitures in appropriate amounts to Defendants Doering and Pick.

**II. PETITION FOR DECLARATORY AND INFORMAL REQUEST FOR COMMISSION ACTION**

Should the Commission determine for any reason that a formal complaint does not procedurally lie in this matter, Complainant's alternatively request:

- (a) a declaratory ruling, pursuant to Section 5(d) of the Administrative Procedure Act, 5 U.S.C. § 554(e), and Section 1.2 of the FCC Rules and Regulations, 47 C.F.R. § 1.2, that the actions of Defendants Doering and Pick as described above are unlawful and not in accordance with Commission policy;
- (b) informally, pursuant to Section 1.41 of the FCC Rules and Regulations, 47 C.F.R. § 1.41, the issuance of an order providing for the relief requested in Section I.C.2, above.

Respectfully submitted,

Mr. Harold Pick  
350 Mesa Road  
Santa Monica, California 90402

In re: United Corporation of Southern California  
Business Radio Service Station (GB) WNMT733  
Santiago Peak (El Toro) California

Dear Mr. Pick:

I am special communications counsel to United Corporation of Southern California ("United") with respect to the above-referenced station.

Sometime in the first half of September 1995, Mr. Robert L. Springfield executed an FCC Form 1046 with the understanding that it was to be used to assign the above-referenced license from United to you. It was also Mr. Springfield's understanding that you would continue to use the station to provide him with repeater service. Although United has continuously used its radios since that time, it nonetheless appears that the intended assignment application (i.e., an application to assign the license from United to you) was never filed with the FCC. Insofar as you never submitted the intended assignment application to the Commission, no assignment could have been lawfully completed before this time. It appears, however, that the form executed by Mr. Springfield may have been used to effect an assignment of the authorization to a third party without United's knowledge or consent.

The purpose of this letter is to advise you that, insofar as (a) it has been over eighteen months since the FCC Form 1046 was executed, and (b) you have never filed the intended assignment application, UNITED HEREBY REVOKES AND RESCINDS ANY ASSIGNMENT MADE TO YOU, BY FCC FORM 1046 OR OTHERWISE.

Very truly yours,

Robert J. Keller

**EXHIBIT No. 5**

# **DECLARATION OF ROBERT L. SPRINGFIELD**

I, Robert L. Springfield, depose and state the following:

1. I am the principal stockholder of United Corporation of Southern California ("United"), which does business in the names Hotline Cleaning and Center Maintenance Company. I have been an owner of this business for more than fifteen year. United sells and services high pressure cleaning equipment and also performs contract cleaning.
2. Until mid-September 1995 I was actively involved in the day-to-day management of United. Since my retirement in mid-September 1995 the day-to-day operations are managed by my son, but I still retain voting control and equity ownership in United and oversee all major business decisions.
3. In connection with its business operations, United at various times used one or more mobile radios for dispatching and communications. At one time United held a Radio Station License issued by the Federal Communications Commission for Conventional Business Radio Service Station WNMT733. This license authorized us to operate our mobile radios through a repeater located on Santiago Peak. A copy of that authorization is appended hereto as Attachment No. 1.
4. At various times in the past, United contracted for and used the services of a Mr. Harold Pick for both repeater service and for repair and service on our radios.
5. In mid to late 1995 I entered into an oral agreement with Mr. Pick whereby United agreed to assign the license for Station WNMT733 to Harold Pick in satisfaction of an outstanding monetary obligation. The agreement I made also provided that Mr. Pick would, after the license assignment, provide us with free repeater service on that call sign.
6. I do not recall the exact date of this agreement but I am confident that it was sometime in the sixty to ninety date period prior to September 16, 1995. I know that because I got married on that date and then wen on a cruise. I also retired from full-time employment with United on or prior to that date. The arrangement with Mr. Pick regarding the assignment of the United license was made prior to my retirement and marriage. Following the wedding, my wife and I left for a cruise to Mexico. We were on the cruise from September 18, 1995 to September 22, 1995. I did not sign any papers or conduct any business on behalf of United while on the cruise.
7. I am not involved in the mobile radio business and therefore do not have a sophisticated understanding of the procedures and regulations applicable to these systems. It was my understanding, based on statements made to me by Mr. Pick, that it was necessary for me to assign United's license to him so that he could use the license to provide us with repeater service. I have since been advised by legal counsel that it was not necessary for me to have assigned United's license, and that I could have (a) contracted with a manager to construct and operate a repeater owned or leased by United, (b) obtained service via United's license through a co-channel community repeater, or (c) received repeater service as an "end user" on the same channel from another entity. Had I been aware of these options at the time, they would have been taken into consideration when I decided whether or not to assign the license to Mr. Pick.
